OraQuick Rapid Antibody Test
ADVANCE® HIV-1/2

Linking patients to care

FOR PROFESSIONAL USE

OVER
40 MILLION
HIV TESTS
USED WORLDWIDE

The OraQuick ADVANCE® Rapid HIV-1/2 Antibody Test has been utilized internationally for over 15 years and is a brand trusted by patients and practitioners alike.

Ideal for HIV screening

Accurate

- > than 99% accurate
- Sensitivity comparable to 3rd generation lab-accurate results including IgM antibody detection

Simple

- Simple 3 step protocol
- Multiple specimen types including oral fluid, fingerstick and venipuncture whole blood and plasma

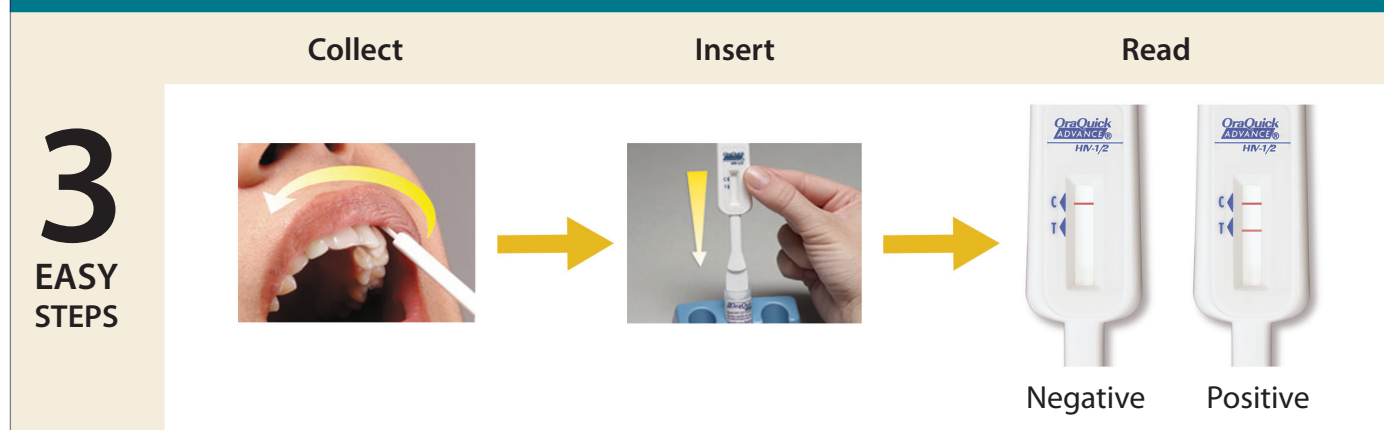

Fast

- 20 minutes from sample to result
- Less than 2 minutes of hands-on time

Benefits of oral fluid testing:

- 3 out of 4 patients surveyed preferred oral fluid testing over whole blood¹
- Can be used in any setting, no need for trained medical personnel
- Oral fluid collection mitigates any potential exposure to HIV or other infectious diseases²

SIMPLE, EASY 3-STEP PROCEDURE that requires less than 2 minutes of hands-on time

ACCURATE. Clinical performance results with >99% sensitivity and specificity*

Sample	Sensitivity	Total N	Specificity	Total N
Oral fluid	100,0%	597/597	99,8%	2373/2378
Whole blood	100,0%	543/543	100,0%	2166/2166
Plasma	100,0%	728/728	100,0%	1642/1642
